- * Sows Farrowing
- * Pig Crop

PROCUREMENT SECTION
CURRENT SERIAL RECORDS

Release:
March 20, 1973
3:00 P.M. EST

Hogs and pigs on farms March 1 in the 10 Corn Belt States are estimated at 42.7 million head - 2 percent more than a year earlier, according to the Crop Reporting Board. Hogs for breeding at 6.8 million are up 5 percent while market hogs at 35.9 million are up 2 percent from March 1972. The 10 Corn Belt States include Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Missouri, South Dakota, Nebraska and Kansas.

The December 1972-February 1973 pig crop, estimated at 14.1 million, is 6 percent above last year. A 9 percent increase in sows farrowing was partially offset by a 3 percent decrease in average litter rate.

Hog producers in the 10 States currently intend to farrow 5 percent more hogs during March-May and 4 percent more in the June-August quarter than a year earlier.

INVENTORY UP 2 PERCENT

The March 1 inventory in the 10 States is estimated at 42,711,000, up 2 percent from last year, with all States up except Iowa and Missouri, which were virtually unchanged from 1972, and Ohio which had a 5 percent decrease. Increases range from 3 percent in Nebraska to 10 percent in Minnesota. Hogs kept for breeding, at 6,795,000, were up 5 percent.

(Continued on page 8)

The quarterly Hogs and Pigs Report has been expanded to include 4 additional States--North Carolina, Georgia, Kentucky and Texas. The expansion to 14 States provides information from States that held about 85 percent of the country's hogs and pigs on December 1, 1972. Totals for the 10 Quarterly States and the four new States will be carried separately in the report for the first year.

Market hogs are estimated at 35,916,000, an increase of 2 percent from last year. By weight groups the March 1, 1973 number on hand and changes from last year are as follows: Under 60 pounds--13,241,000, up 868,000; 60-119 pounds--8,134,000, up 331,000; 120-179 pounds--8,599,000, down 186,000; 180-219 pounds, 5,021,000, down 222,000; 220 pounds and over--921,000, down 102,000 head.

The number of hogs and pigs on farms March 1 in the 14 States are estimated at 49,125,000 head. Hogs kept for breeding are placed at 7,857,000 head and market hogs at 41,268,000 head.

DECEMBER-FEBRUARY PIG CROP UP 6 PERCENT

Sows farrowing during December 1972-February 1973 in the 10 States totaled 1,994,000, 9 percent above a year earlier. The average litter rate was 7.09 compared to 7.30 in 1972 and 7.01 in 1971. All 10 States farrowed more sows than a year ago except Missouri which was unchanged. Minnesota had the largest increase, up 20 percent. The pig crop at 14,132,000 head was 6 percent above a year earlier.

Sows farrowing in the 14 States during December-February totaled 2,363,000, up 8 percent from last year. The average litter size in the 14 States was 7.08 producing 16,719,000 pigs.

MARCH-MAY INTENTIONS UP 5 PERCENT

Hog producers in the 10 States intend to farrow 3,245,000 sows during March-May, 5 percent more than last year. All States show advances except Ohio and Wisconsin which indicate declines. Iowa, the Nation's leading hog producing State, is up 5 percent.

Hog producers in the 14 States intend to farrow 3,628,000 sows during March-May 1973. If realized, this would be 6 percent greater than in 1972.

JUNE-AUGUST INTENTIONS UP 4 PERCENT

The first intentions estimate of sows to farrow June-August in the 10 States is 2,431,000 head, 4 percent above 1972. Six States show increases while Wisconsin and Missouri remain unchanged and Ohio and Nebraska expect declines from the previous year.

Intentions to farrow in the 14 States during June-August totaled 2,781,000, up 5 percent from last year.
